Hi Nancy,

We can set up the conference line. The invitation will follow shortly.

Thank you and all the best,

Ksenija

Re the Astroturf call, let's do it on Monday, 2 to 3. Do we need to set up a call in number or will you do that?

Just wanted you both to know that we have not forgotten about this and are trying to get it set up. Likely next week.

Fantastic. We were just curious about some of their product systems including the use of antimicrobials, and any unique installation practices they may have for their fields. We don't anticipate this call lasting as long as the one we had with Rom and Bruce, maybe only 30 minutes.

Thank you,

Chris

Of course we can get that scheduled. What should I tell them you wish to talk with them about?

Hi Nancy,

Thank you. We will pencil in the installation in mid-August, but would it be possible to schedule

a conference call with the sales team for a time in July? Times that work for us in the next two weeks are:

- Wednesday, July 20, 9-10
- Wednesday, July 20, 10-11
- Thursday, July 21, 9-10
- Monday, July 25, 2-3, or
- Tuesday, July 26, 2-3

Thank you and best regards,

Ksenija

Ksenija and Chris, Unfortunately, next week will not work for you to observe the installation in

Ft. Meade. However, they have another one going in in mid-August in DC (which should be more convenient for all concerned). Pencil this in on your schedule and we will reconnect in early August.

Nancy-

After discussing schedules and trying to coordinate a site visit with our team, it looks like next week will not work for everyone's schedules. We have another project with SCM

Kipp Field

1401 Brentwood Parkway NE

Washington DC

Tentative Infill Installation Date – August 12, 2016 – August 16, 2016

Let's connect around August 1, 2016 to verify project is still on schedule.

Any questions please let me know.

Thanks,

Mitchell Truban – CFB-S

Mitchell and Tim, thank you for the information about the installation next week in the Washington DC area. I will pass this information along to the staff at EPA who gave us the request. I suspect that they will be most interested in observing. Can you give me a better sense of the timing—what day, and time of day, do you think the installation will occur?
